“ Prayers go out to the family of Denny Balla.
I worked in the Foundry Department at the Bethlehem, PA plant in the late 1980's through the early 90's, and would see Denny when I would visit the Burns Harbor plant on business. He was in Steelmaking, and was well respected there. More importantly, he was a great guy and since he was originally from PA, he would always take time to talk to us when we were there. Sometimes we would go to dinner with him and other co-workers at restaurants in Michigan City. He'll be greatly missed.
