“ I am so sorry to hear about Brittney's passing. I went to Ivy Tech with Brittney back around 2010-2011. I had just gone through some hard times with the health of my family, and decided to go back to school. Brittney was the first person I met in my first class at Ivy Tech. She sat by me and made me feel a lot less nervous about starting my life over. I had many classes with her during the time I was there, and was always so excited to see her on the first day of the semester. She was comforting to be around! I remember when we were both taking anatomy, I was doing terribly, and we decided to study after class one night at her friend's house. We intended to study but mostly just talked and laughed. She was such a light in people's lives. I was so proud of her when I found out that she stuck with the health classes at Ivy Tech, and worked in the medical field. I learned through those classes that it wasn't exactly my path, and ended up going to a different program. I always took the experiences I had with Brittney with me to my new classes every semester. She really showed me that it was possible to meet amazing people who were caring and kind. I know she will be greatly missed by all who knew her. You are all in my thoughts and prayers.

*“ Many of us knew her as an employee of IU Health Bloomington hospital long before she became sick. Many of us cared for her during her extended illness and special friendships were made. All of us on 4E loved her and we are deeply saddened at the loss of this beautiful young woman who had a heart of gold. May we all find strength in knowing that she is no longer suffering and we will meet again as our Lord has promised those who believe.*
