“ *I'll never forget a conversation I had with Chuck. He was talking to me about his experimental treatment he was taking. I got so excited.... he said NO Vicki it will not help me in anyway. I said 'Oh' he said, " I am doing this hopefully to save someone else's life. He said you never know one of my grandchildren, one of my kids, one of my friends or a complete stranger , could benefit from something my treatment helped them find. I believe this says what Chuck's life was all about....caring for everyone else. Love you my friend....See you again!!!*

“ *Chuck (Chuckie) is my cousin and as kids we were pretty close. I remember a time that we were sledding down a hill with a wire fence at the bottom. He, Rickie and I were on the sled and we couldn't stop. Chuckie pushed me down in the sled because he knew the fence was there; unfortunately, the wire fence caught his eyebrow. We were all terrified but it ended up being a minor injury. Even as a kid he was looking out for others. In our busy adult lives we grew apart but would see each other from time to time and catch up. Jon and my son Ben went to high school together and graduated together so we would see each other at school events. Chuck will be missed by many but I am glad that he no longer has to battle his illness.*
