“ I met Christi in the 3rd grade, she was the best friend anyone could ask for. I could tell her anything. She was so much fun, notes in class, band trips, overnights and trips around the square, going to the prom, she even let me drive her car when she got her license and I didn't have mine yet so I could get more practice. We married and had kids about the same time. She loved her boys so much and now her grandbabies. She talked about them all the time. She had such a big heart and could laugh at anything, such a sense of humor. We celebrated her 58th birthday last year at Mother Bear's, ordered pizza, salad, fried mushrooms and cheese sticks and laughed until we cried. Christi I'm not sure how to go on without you, I know you're where you dreamed of. Fly high, tell my Dad hi for me and someday I will join you. Love forever, Tina

“ I met Christi in the 3rd grade, she was the best friend I've ever had. I could tell her anything. We played in the band together, she let me drive her car one time when she had her license and she told me I needed more practice so I could get mine. Overnights, notes in class, going to the prom, getting married and having our kids together. One time I was struggling with a problem and she looked at me and said "I just want you to be happy". I'm going to try to do that now, somehow. I'm not sure how without her. Christi you were the best friend a girl could have, I love you deeply and will miss you with every bone in my body. Fly high, tell my Dad hi for me and I will join you someday.
