“ Dear Indu and Priya, I wish to send my condolences to both of you and your family. Gopi was a very special person to me and I always looked forward to seeing his warm smile when I came to visit my mom. The way he would lovingly reach out and touch my two little girls' hands showed his gentle nature. I will miss visiting with you Indu. I so enjoyed our chats about Indian cuisine, our families and daily lives. Please know that you are always in my heart and we think of you often.
