“Ginger,  
My thoughts and prayers are with you and the family. Please know you have a lot of support and love from your "Airport Family". I was on vacation, as you know, and could not make the service. Love to you all.

“I just wanted to express my condolences to you on the loss of Greg. I worked with him in the 90's when he operated his computer consulting business. Greg had both a natural curiosity and a great sense of humor, which were both necessary qualities in dealing with our computer needs (and me).

Many times, I'd challenge him to find a better (and cheaper) solution than what was offered "out of the box" and he always came through. Of course, that required proper fuel (considerable quantities of gourmet pizza) when we'd meet in the evening to work on this stuff. In fact, we're still using some software applications that he helped me to develop for our business.

We hadn't been in touch since he moved on to working in social services, but he was a good guy and I know that you'll miss him.

With deepest sympathy,

Peter
