

Roy J. Gardner

May 21, 1947 - January 10, 2011

Professor Roy J. Gardner passed away unexpectedly on Monday, January 10, 2011 at his residence in Bloomington. He was 63 years old. He leaves his wife of 42 years, Carla Gardner (Reardon), son James C. Gardner and his partner Alice Moffatt of Seattle, and daughter Sara A. Gardner and her partner Betsy Williamson of Bloomington, and numerous friends, colleagues, and students. Roy Gardner was born on May 21, 1947 in Peoria, Illinois to Harold and Ann Gardner (Firtik), both deceased. He was valedictorian of his high school class of 1965 at Limestone High, Peoria as well as the state Latin champion. He graduated summa cum laude from Bradley University in 1968. He served as an artillery officer in the US Army-Vietnam and won the Bronze Star for his service to his country. Roy earned his Ph.D. in economics from Cornell University in 1975. He recently retired from Indiana University where he had been since 1983. He held the titles of Chancellor's Professor of Economics (since 1996) and Henry H. H. Remak Professor of West European Studies (since 2004). Roy specialized in the theory of games and economic behavior. He was a member of a large multidisciplinary NSF grant, "Mathematics across the Curriculum," (Indiana University), as well as a large German Science Foundation grant (University of Mannheim), and two large TransAtlantic Cooperation grants from the Alexander von Humboldt Foundation (University of Bonn and Humboldt University Berlin). He also served as the Academic Director of the MA program in Economics at the Ukrainian National University "Kyiv-Mohyla Academy" since 2002. He applied

game theory to such topics as class struggle, spoils systems, draft resistance, alliance formation, monetary union, and corruption. Roy was dynamic and full of life and will be deeply missed by each person who knew him. A celebration of Roy's life will be held at the Frangipani Room, at the Indiana Memorial Union on January 29, 2011 at 2 p.m. In Lieu of flowers an award has been created to honor Roy, the Roy J. Gardner "Best Thesis" Award through the Department of West European Studies. Please make your check to the Dept. of West European Studies in honor of Roy J. Gardner and submit to the IU Foundation PO Box 500, Bloomington, IN 47402 Arrangements are through Allen Funeral Home 4155 South Old Highway 37 and online memories may be sent to the family at www.allenfuneralhome.org.

“ *My wife and I are deeply saddened that we have lost a great friend, great mentor, and a Brother in Arms. I cherish the time that I had him as my instructor and eagerly entered his classroom. He was a great mentor as my MA thesis advisor. After I left IU Roy and I kept in constant touch through the years and shared many a story and many a joke through the years. As a fellow Army officer he and I could swap the inherent humor that often surrounds the Army... Few people realize what he had to endure in Khe Sanh... surrounded... cut off... and pounded by enemy artillery on a daily basis. It was a brutal existence yet he pulled his men through - a testament to a very talented young officer... His senior officers apparently didnt think much of his appearance when they finally made it to the front and Roy said he just laughed.... my kind of guy! Roy! The whenever I smoke a Cuban I'll remember you my friend....*

“ *Dear Gardner Family:*
Words cannot convey the deep sadness I feel in learning of Roy's passing. As I described to my wife upon learning of this news, there are a handful of people that truly altered the course of my life. Certainly, my parents, grandparents, wife and children are on that list. But so too, is Roy. He allowed me to hitch my cart upon his horse back in 1981 when I was a young student at Indiana, and he put me onto the path of economics from which I never strayed. His early work in game theory was particularly inspiring and the lessons he taught have carried me well throughout my adult life. I wanted to share this with you so that you understand that I am but a very small representative sample upon which Roy had a profound impact. My deepest condolences to you all.

“ I am deeply saddened to hear of the passing of Roy Gardner. I and my family offer our sincerest condolences to the Gardner family. For well over 12 years Roy and I were an interview team during the December weekend visit of Wells Scholars nominees. Though we talked throughout the year, it was always a joy to join Roy on a Saturday afternoon for several intense hours of conversation with 4-5 excellent high school seniors and our own discussions together which followed. He always brought high seriousness and good cheer.

“ Roy and I served together as artillery officers in 1st BN/2ND Artillery in Baumholder, Germany. The last time I saw Roy was February 1971 in Dong Ha, Vietnam on my way to the mess hall. He had just come in from a flight as an AO. We talked for a few minutes.

“ Roy was a friend of mine since 1963. He was a brilliant student in high school, and our valedictorian. I can remember him setting in the back of our math class studying calculus on his own, while Mr. Bangert attempted to teach algebra and trigonometry to the rest of us. His enthusiasm did not stop at the classroom; he enjoyed wrestling and other after school activities, and also our late night poker games. He occasionally would practice his wrestling holds on one of us after losing a big poker hand. He was a guy you looked up to because of his superior intellect and zest for learning. I will miss him a lot. My condolences to Carla, James, and Sara.

“ I First met Roy while I was teaching economics in undergraduate program at Kyiv Mohyla Academy. Later I became a colleague at EERC there through my position as external reviewer of the student masters' theses (2002-2009). Roy was an extraordinary man. In addition to his scholarship, I most appreciated his passion for teaching, for his students and colleagues, and his loyalty to the many institutions with which he was associated. His involvement helped the EERC program avert several disasters over the years. Finally, his instant response to any and all emails convinces me that he never slept. He will be missed by us all.

“ Dear Karla and children,

Though I have not seen Roy very often since retiring, my memories of him in the Economics Department are many and very pleasant. His concern for his students was always apparent and his good humor was unfailing. When Dick and I lived in Sycamore Knolls we frequently saw Roy on his bicycle early in the morning when we were taking a walk. It is a terrible shock that he has left us so early in his life and we all will miss him greatly.

“ I first met Roy in freshman Latin class in Illinois in 1960. Within weeks I began to have the wonderful but theretofore unfamiliar feeling that learning in school could be an adventure. I did not get this feeling from our teacher. I got it from Roy. Even now, though I recall no particular lesson of any of our teachers, I remember (to give just two instances) Roy’s rousing orations in speech class – one on Betty Friedan and the other on Napoleon. Even more vividly, I remember Roy from another setting – the night-time poker table. During our junior and senior years, several of us guys met almost weekly for long sessions (sometimes till dawn) in this or that parental basement. To these scenes Roy contributed practically every extreme of emotional display known to the family of higher and lower primates. I mention, but am unable to fairly describe, his joyful but aesthetically horrifying renditions of ‘Be true to your school’ (by the Beach Boys) and of the opening notes of Beethoven’s Fifth; or his expressions of bottomless misery when he lost a big hand; or his mordant and unforgiving assessments of our variously defective characters when the general run of the cards was against him; or his shamelessly extravagant glee and gloating in victory. All these moods and sentiments he decorated with a Saxon phraseology of trademarked elaboration and pungency. This was our opera. How he felt things! It was glorious. Unforgettable. Roy, I thank you. To Carla, Sara, and James -- I am truly sorry for your loss.

“ Dear Carla, James, and Sara,
I can't believe that we are mourning Roy's death so SOON. I have enjoyed reading these tributes to Roy from you and from his friends, colleagues, and students. What a fine man, indeed!

I hope to always remember the fun evenings that Michael and I spent with Carla and Roy, going to dinner, enjoying a brew, and sitting, maybe talking, maybe watching some tube.

Seasons change. Michael is gone and now Roy has joined him. And, while things will never be "normal" in the same way for us left behind, we'll somehow learn to live with the new normals.

*Best love to you, Carla, Sara, and James,

“ I'm so sorry to learn of the unexpected loss of Roy. I didn't know him personally but I did want to express my sympathy to the family. At times like these I know it's really hard to know just what to say. I have found that the Bible has very comforting words. “ My wife and I met ROY through my daughter. (One should never write the word ROY except in CAPS; also, one should never speak the word ROY without bringing it up from the deeply guttural beginning 'R' and ending with an 'I gotcha' grin).
Our daughter Lara rode on the Little Five's LandSharks victory team back in '92 with Sara, the daughter of ROY and Carla. So I am with Tina Hartnett's comment: we too are big, big fans of the #1 Landsharks' fan--a role ROY did with as much relish (and more verve perhaps if that is possible) as he did his professor-ing. ROY is a once-in-a-life-time person to be privileged to meet and share time with.
We thank IU and our daughter Lara for introducing us to the deeply blessed, full of life, beautiful Gardners.

“ Words seem inadequate to express the sadness we feel. First I met Professor Roy Gardner as a student in the MA Program in Kyiv in 1999. And what struck me then was his believe in people, in their kindness and good intentions. He was one of the best Teachers (not only in game theory) whom I will remember forever. Then I encountered him at the interview when I applied for a job in Kyiv. He was frank but optimistic and encouraging, and his faith in the future of the Kyiv School of Economics is what brought me back to Ukraine and what helped me through some of the difficult times we have been through. This January Roy has started as a full-time faculty at the KSE and lots of plans have been discussed related to his new appointment exciting all the faculty with having his wisdom, optimism and good nature on-board full-time. Roy is already greatly missed as a Teacher and as a Colleague.

“ Roy was a friend for so many years that I cannot even count them. He was one of the best-read people I ever knew, a brilliant economist, a thinker who could draw on different disciplines, a teacher without equal, and a linguist with capabilities beyond those of so many of the linguists I knew. Articulate and faithful to his principles, Roy never failed to do what was right for his students. He could be eloquent, but he was always clear. He was always intellectually challenging and interesting in ways that made a difference to me...not to mention his students. His work with honors students, which I knew intimately, was simply inspiring. He was able to make his students achieve even more than they believed possible. And he was never afraid to get down to the hard work of the HHC scholarship committee on which he served for many years (only one to which he devoted hours of his time). His judgments were well-defined and clear. His energy and intelligence informed everything he did. Roy also knew how to appreciate and to create good food. He was always my treasured friend. Along with Carla, he made my life better and more interesting. I will miss him more than I can say.

“ I was a student of Roy J. Gardner last year. I am extremely sad to hear his passing. I met him just a month ago. Rest in Peace, Professor!

“ Roy and I were friends as well as colleagues. We would often joke that we would see each other more often outside the US than on campus. My last encounter with Roy was in May of 2009, at a three-day conference at the Insel Reichenau (Konstanz, Germany). On a thursday evening we sat together on the boat that, traveling along the beautiful Bodensee, took us from Reichenau to a restaurant in Gottlieben (Switzerland). We talked mostly about family. Roy was in splendid form. I will miss him. My wife, Shelley, and I like to extend our deepest condolences to Roy's family.

“ My son, Christopher Waller, has spoken so often over the years of Roy. He was in contact with him almost every day for over 20 years. My deepest sympathy to your family.

I know he will be missed by many, many people.

“ To Carla, Sara and James:
Roy was my valued colleague from the time he came to IU. He supported my career and I learned much from him. His office was next to mine in Wylie and I always knew when he was in and we often talked about game theory and other matters. He was wonderful about reading and providing comments on others work. He seemed in such great spirits when I last saw him at the Alumni reception in Denver on Saturday. I am still in shock from learning that he so suddenly passed away. He had great plans for his retirement years. He will be missed by all of us.

“ Dear Sara, James, and Carla,

I am deeply sorry for your loss, and hold you in my thoughts at this very difficult time. Roy was a great mentor to me in my dissertation work, and a friend over the years since I left Bloomington.

I also lost my father abruptly at a very early age, and can imagine what shock and loss you are feeling. My sincere sympathies.

I hope to come to the memorial on the 29th.

With all best wishes,

“ *Ilse and I are shocked and deeply saddened by Roy's sudden death. He was a dear friend. And a great scholar and colleague. The world is poorer without him. We miss him very much.*

Our hearts go out to Carla and their children, sharing their grief.

“ *Please accept my sincere condolences during this time of grief. Roy was a colleague who I have enjoyed several conversations with and benefited greatly from his advice. Roy had welcomed me from the first day that I joined the IU department of Economics and was always kind and helpful to me. I will miss Roy and his outlook on life. My best wishes to Roy's family.*

*Sincerely,
Jim Self*

“ I was with Roy the last 3 nights of his life. I will always remember them for the laughs and conversation. I talked to him nearly every day for 20+ years. There is a hole in my life that I cannot fathom. Save me a chair in heaven buddy.

“ As one of many of Professor Gardner's former students, I was deeply saddened to hear of his passing. While I doubt he remembered me, his doctoral level game theory course was one of my favorites and I still think back fondly to some of the lessons and the way in which he taught. In addition to his family and friends, he will be missed by hundreds (if not thousands) of former students whose lives he positively impacted. On behalf of myself and several of my colleagues that I have been in touch with, I wish to extend our deepest condolences.
